2024 DOOR & FINISH GUIDE

QUALITY IS MORE THAN OUR NAME. IT'S OUR PROMISE.

For more than 40 years, QualityCabinets has been living up to our promise: to offer the finest cabinetry, in a beautiful array of styles and colors, designed to fit any budget. From the materials we use, to the artisans who craft our cabinetry, we're committed to the delivering most value and achieving the highest standards in everything we build. And with every QualityCabinets™ product backed by a 10-year limited warranty, you can count on that promise for years to come.

DURABLE CONSTRUCTION

CABINETS BUILT TO LAST

Our cabinetry meets or exceeds industry construction and performance standards.

DURABLE FINISH

Multi-step finishing system provides added value with a protective topcoat to resist scratching and stains.

QUALITY CONSTRUCTION

Base cabinets and vanities use I-Beam supports to keep your cabinets square for the best installation.

SOFT-CLOSING FUNCTIONALITY

SoftAction™ six-way adjustable soft-closing door hinges help ensure precise alignment and reduced noise for years to come.

CONSTRUCTION OPTIONS

You can make a variety of upgrades that can help enhance your cabinetry.

DOVETAIL DRAWERS

Dovetails are the strongest of all joints. These two-part joints are constructed of interlocking wedge-shaped elements called pins and tails that resist the forces applied to the joint. This joint looks attractive, adding a special decorative quality to any cabinet.

PLYWOOD END PANEL

Upgrade to ½" thick furniture-grade plywood for added strength and an exceptional look.

ALL-PLYWOOD CONSTRUCTION

Upgrade further to include plywood throughout the cabinet construction. Upgrade includes ½"-thick, furniture-grade plywood end panels and dovetail drawers throughout.

DOOR STYLE DETAILS

WOOD TYPE

MAPLE

Maple is versatile and takes color quite well, making it a very popular choice. It has a fine uniform grain and, overall, is a very consistent wood type.

OAK

Oak is a heavy, hard wood, that has a coarse, noticeable grain. It provides dramatic lines that can play quite differently depending on the finish color chosen.

CHERRY

Cherry has a fine-to-medium grain and is moderately hard and heavy. While it often has a deep color, it can vary depending upon your choice of stain.

LAMINATE

Laminate is a thermo-plastic polymer wrap that is applied to engineered wood or Medium Density Fiberboard (MDF). This cabinetry gives you a uniform appearance.

OVERLAY TYPE

FULL OVERLAY

Overlay is the amount of the face frame covered by the cabinet door. A full overlay draws attention to the door and drawer design, creating a more seamless look.

PARTIAL OVERLAY

A partial overlay usually reveals about one inch of face frame around the door. A partial overlay creates an attractive, traditional look. Partial overlays usually cost less than full overlays.

CENTER PANEL PROFILE

RAISED

In a raised panel door, the center of the panel is higher than its edges. This style is used to create square door styles.

RECESSED

A flat panel recesses between the stiles and rails.

DRAWER FRONT TYPE

SLAB DRAWER FRONT

The traditional, yet stylish look of a slab drawer front complements a wide range of designs. This simple design allows you to get creative with a variety of wood grain and color selections.

5-PIECE DRAWER FRONT

5-piece drawer fronts are constructed in similar fashion to doors, having a frame and center panel. 5-piece drawer fronts are more expensive because they require added craftsmanship and provide design details that mirror the style of the door, adding value to the overall style of the cabinetry.

FINISHES

Adding color to your cabinetry can bring your entire room to life. Colors can range from bright white to a deep blue, each of which gives your cabinetry a unique look and personality. Carefully consider your color choice to ensure that it matches the overall feel you want for your space.

PREMIUM FINISHES

				
Painted Cotton	Painted Cotton w/ Tuscan Highlight	Painted Chiffon	Painted Chiffon w/ Desert Highlight	Painted Chiffon w/ Tuscan Highlight
